LED EXIT & DIRECTIONAL SIGN RANGE

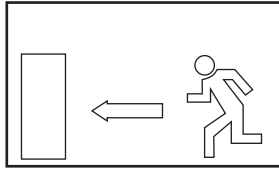

LED EXIT & DIRECTIONAL SIGN RANGE

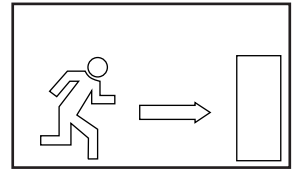

A smart, modern low energy led sign light system, utilising 12 standard 5mm high output LEDs. The LEDs are precision mounted for optimum illuminance through the special acrylic diffuser. The solid state control gear is mounted within the extruded aluminium housing, the emergency version includes removable NI-CAD batteries within the housing.

The two piece extruded brushed aluminium case allows the sign to be angled to the customers requirements. The unit can be mounted either vertically or horizontally. The emergency version has an internal switch for the emergency function and the signs are available with RED, BLUE or GREEN LEDs.
